

# VU TRONG THANG

## FRONTEND-DEVELOPER

### BACKGROUND/CAREER OBJECTIVES

With 2 years of software industry experience, I specialize in developing commercial applications and school management systems. Over the next 6 years, I aim to advance to the role of Techlead, leading development teams and expanding my expertise in system architectures, codebase management, and advanced technologies such as ReactJS and Node.js. I am dedicated to optimizing development processes, ensuring product quality, and fostering a motivating work environment for team growth and sustainable company success.

### WORK EXPERIENCE

#### **INTERN FRONT-END** // 04/2022 - 09-2022

##### **VietGuys- Mobile Marketing Solutions**

Gained valuable experience working alongside a professional team, actively involved in the development and maintenance of Zalo Mini App and other systems for both the company and its affiliated enterprises. Built interfaces based on designs from Figma and Photoshop

**Acquired skills:** Interface design, team collaboration, review code.

#### **SOFTWARE ENGINEER** // 9/2022 - 4-2023

##### **Cohota Company**

Engaged in software development projects, including the creation of school management systems (LMS, SIS). Explored various programming languages and techniques, contributing to a diverse skill set and adaptable problem-solving abilities. Collaborated with multidisciplinary teams to design and implement innovative solutions, ensuring effective communication and seamless integration across different platforms.

**Acquired skills:** Utilization of multiple programming languages, strong problem-solving, effective teamwork, efficient communication, and seamless system integration.

#### **FRONTEND-DEVELOPER** // 5/2023 - 6-2024

##### **Gree Group**

I actively contribute to enhancing the customer experience through app development. I implement events and ideas received from the team, translating them into user experiences that align with user needs and preferences. Additionally, I am actively involved in optimizing the app's functionality and usability to ensure seamless user interactions.

**Acquired skills:** User experience design, team collaboration, functionality optimization, effective communication skills, contributing innovative ideas to application development.

### EDUCATION

#### **WEB DESIGN SKILLS COURSE** // 2021 - 2022

##### **CYBERSOFT**

Graduated with excellence from the FrontEnd Programming Training Course at Cyber Soft.

Featured products: Website Cinema, Website Elearning

#### **INFORMATION TECHNOLOGY** // 2019 - 2023

### PROFILE

 trongthangvu.200301@gmail.com

 0985217315

 <https://port-folio-vu-thang-tauvercelapp>

 Ho Chi Minh City

### SKILLS

WORK WITH FRONTEND JS, REACTJS  
FRAMEWORKS

DESIGN RESPONSIVE WEBSITES, CREATE  
WEB LAYOUTS USING FIGMA AND  
PHOTOSHOP, AND WORK WITH RESTFUL  
APIS.

TEAMWORK, EFFICIENT  
COMMUNICATION SKILLS

OPTIMIZING SOURCE CODE,  
PERFORMANCE, TROUBLESHOOTING AND  
DEBUGGING SERVICE

PYTHON, NODEJS, GIT, POSTMAN

WORK WITH REACT/REACT NATIVE  
SOURCE CODE AND CONVENTIONS,  
TYPESCRIPT, REACT COMPONENT,  
REDUX, REDUX-THUNK, FLEXBOX, PUSH  
NOTIFICATION, CSS FRAMEWORK  
(BOOTSTRAP, ZURB, ..), CSS  
PREPROCESSOR (LESS, SASS,..)

### CERTIFICATIONS

2022

Cybersoft Certified IT Professional

### INTERESTS

Researching documentation, reading books, listening to classical music, podcasts, and engaging in sports

## REFERENCES

## HONORS & AWARDS

## ADDITIONAL INFORMATION

### Open University

Completed Curriculum and Specialized Electives in Information Technology

### PROJECTS

#### E-COMMERCE APPLICATION // 2023 - 2024

##### Gree Group: Developer

The E-commerce project utilizes PHP and ReactJs, incorporating various external libraries including Zalo's libraries to enhance interaction and optimize user experience. Here, I connect APIs, utilize Redux-thunk for asynchronous operations, conduct code reviews, testing, implement code following design specifications, optimize loading speed, and integrate Zalo's libraries for enhanced interaction and user experience in the E-commerce project built with PHP and ReactJs.

##### Technology description

ReactJs/Redux, Git, Postman, Redux-thunk, Bootstrap, HTML, SCSS, Javascript, zmp-Zalo

#### EDUMANAGE // 2022 - 2023

##### Cohota: Developer

The School Information System (SIS) and Learning Management System (LMS) project was developed to cater to the needs of educational institutions. It includes features for managing boarding and day students, tracking grades, generating reports, handling administrative tasks, and facilitating communication between teachers, students, and parents. The system aims to streamline school operations, enhance student performance tracking, and improve overall efficiency in managing school-related tasks. Here, I am using the following technologies for programming.

##### Technology description

NodeJs Strapi, Python, ReactJs/Redux, Redux-thunk, Devtool, Git, Postman, HTML, CSS, Tailwind Css, BootStrap, Javascript
